100 UNEMPLOYED JORDANIANS, 2025

Of every 100 unemployed Jordanians. Two in three unemployed Jordanians are men.

UNEMPLOYED IN EVERY 100 IN THE LABOUR FORCE · DERIVED, 2025

Why both are true

Only 14.7 in 100 Jordanian women are in the labour force, against 53.6 in 100 men (Q2 2026).
A higher rate on a small base is fewer people than a lower rate on a large one.

DERIVED

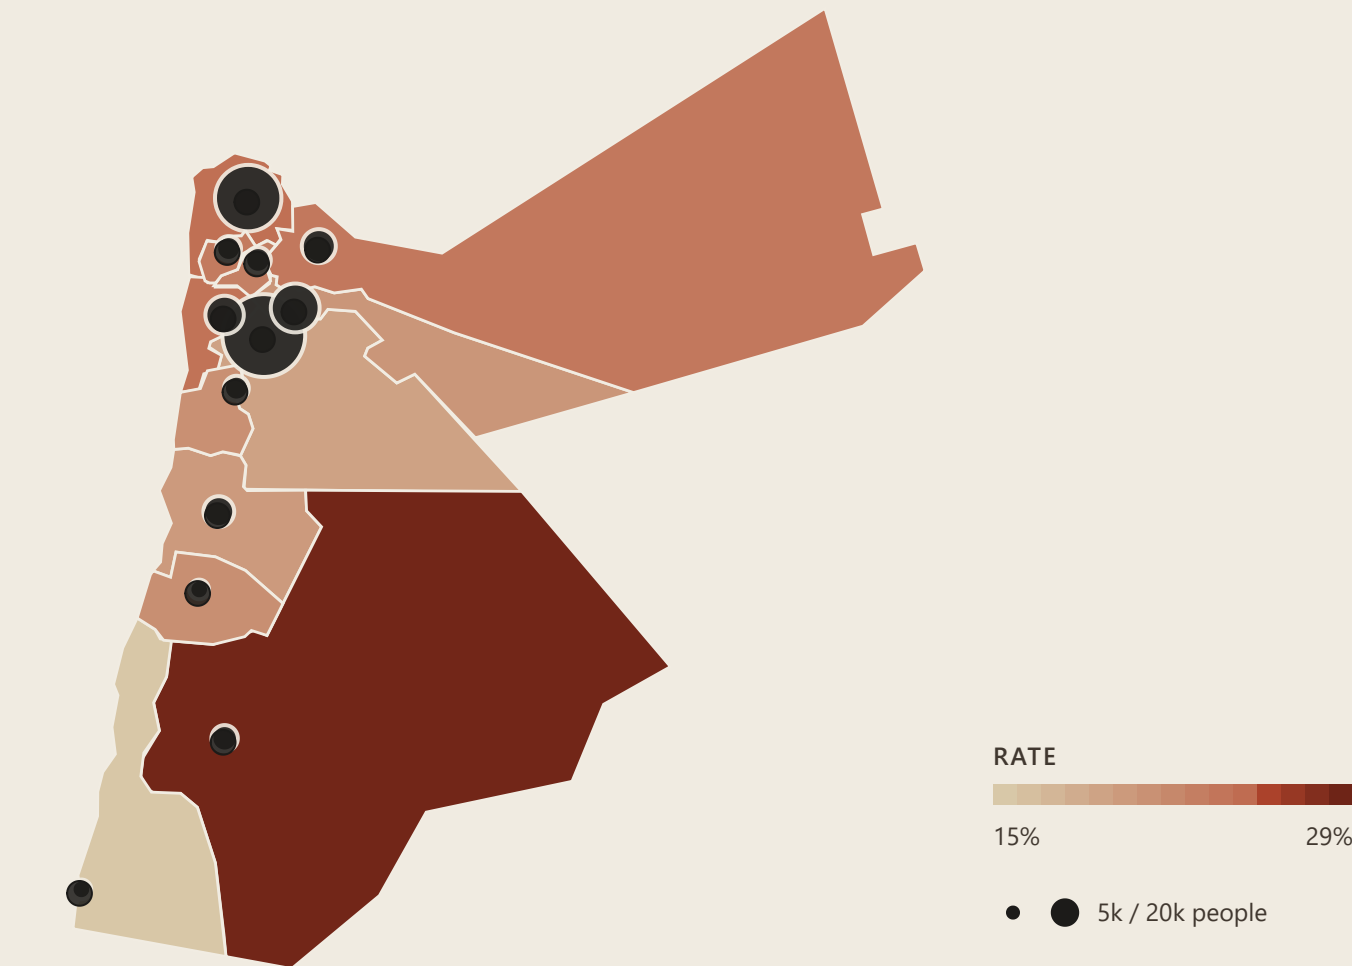

LIMITED EVIDENCE: SMALL BASE

Youth (15–24): 47.2% in 2025, from annual counts. DoS publishes age 24+ only (18.0% in Q2 2026).
